tdassinger@hydmill-usa.com
Phone (919) 366-1516

Contact Person: Tim Dassinger
Type of Business: Power Plant
Commissioning and hyrolazing

Why Join the Chamber of Commerce?

Joining your area's Chamber of Commerce can be a smart move for your business. Because businesses that participate in this group promote each other and work together, your own business can grow and prosper quickly. Here are just a few ways you can benefit by joining your local Chamber of Commerce:

- If you make it known that your product or service makes great client or employee gifts, you could wind up with a very nice flow of business from your fellow Chamber members.
- You may be able to line up some lunchtime sales or parties featuring your products at local businesses to help employees with gift shopping (especially at Christmas, Valentine's Day and Mother's Day).
- You may qualify for less-expensive health insurance and business insurance available to Chamber of Commerce members.
- You can find out about local events where you might set up a booth and promote your business.
- You'll meet good, reliable sources for products and services like accounting, printing, computer support, etc.
- You'll be referred to other Chamber members' contacts.
- You have a good chance of meeting local retailers who may be interested in carrying your products.
- You'll have an opportunity to do joint ventures with other local businesses, such as cooperative advertising or trunk shows.
- Your business name can be associated with improving your community, since Chambers of Commerce generally work on civic improvement, legislation favoring local businesses, and economic development.
- You may have access to mentors who can help you develop your business; or you may be able to serve as a mentor to someone else.

These are just a few of the many ways your area's Chamber of Commerce can give you access to a valuable networking and marketing system.

The Chamber asked Beth Hunter of Hunter Computer Solutions...

"How has the Chamber helped your business grow?"

The Chamber provided me with the tools to enhance, advertise (including print media, radio, television and internet) and network my business.

"What did you do in order for this to work for you?"

The Chamber works for you if you are willing to work with it. Hunter Computer Solutions has taken advantage of many opportunities that the Wendell Chamber of Commerce offers. Networking events, Business After Hours and Ribbon Cuttings, to name a few. We attend with energetic, positive, attitudes and a stack of our business cards. We have also staffed the Chamber table at the Farmer's Market to assist the Chamber and promote our business. We have certainly reaped the benefits, expanding our customer base with a large number of other Chamber members. People need to know you so they can trust you. Put the Chamber events on your calendar and take the time to talk about your business. You won't be sorry.
